THE Rowe Goal Post

Established 1975

Classic

And the sun took a step back,
the leaves lulled themselves to sleep,
and Autumn was awakened.
-Raquel Franco

Editor's Message

Submitted by Sue Alix Williams

And like that, September comes to an end and fall has arrived! The last few weeks have been just wonderful weather-wise and the colors are starting on the trees. We had a notable thunderstorm on September 4th (see page 17) and the first light frost on the 19th. And now October is upon us – a month of transition and change throughout both hemispheres. With the passing of the September equinox, the world is shifting seasons.

I had an unfortunate accident while trail running on the Dunbar brook trail and fractured my wrist on September 15, so I've been working on using the computer and typing left handed - a challenge!

BIGFOOT wasn't sighted!

Wow! He's even hard to see in this photo! We all know he's a shy creature, but no one spotted him lurking on the ledges of Joe King Hill. Hopefully in his travels around town this month he'll be less elusive, so keep your eyes peeled!

Town Clerk

Submitted by Paul McLatchy III

My office hours continue to be Monday, Tuesday, Thursday, and Friday from 7:00-8:00 AM, and 4:30-5:30 PM. I am happy to make an appointment for evenings, and simple requests (i.e. swearing in) can be conducted by visiting me down the hall from 8:00-12:00 and 12:30-4:30 those same days.

I will be out of the office starting the afternoon of Thursday, October 17th through Sunday, October 27th. I will not be available by phone or email and will not be checking any messages during this time period.

I am still seeking new election workers for local and state/federal elections. The work is easy, and meals are provided. Pay for tellers is \$13/hour. If you are interested, please call my office (339-5520x14) or stop by and let me know so that I can have you appointed by the Board of Selectmen. State and federal elections run for nearly 15 hours, so it's important that we have enough people available to staff all shifts.

I am continuing with my push to digitize the town clerk's office. Older sets of School Committee, Planning Board, and Finance Committee minutes are now on the website. As I move into the safe for other minutes, more sets will be added. A reminder to all boards and committees that once minutes are approved, a signed copy should be given to the town clerk.

FUN FACT!

The first road over the mountain to Charlemont was Norton's Pass in 1744. Later, the name of this road was changed to King's Highway.

Broadband Update

Submitted by David Dvore, MLP

With the fiber network complete, we have been working on getting installations to customers. It's going slower than I would like, but we've got about two thirds of the customer installations complete at the time of writing this. New crews should be working on installations by the time you read this, so we hope to get everyone who signed up for service connected by the end of October or early November.

If there are any stragglers out there who missed the deadline to sign up for free installation, we can still offer that if you sign up soon. Go to <http://wiredwestfiber.com/rowe> to sign up. Also, for those of you who asked for installation, i.e. connection from the road, without actually starting up service, it looks like we'll be able to cover the cost up to the outside of the house. If you start up service in the future, you would still need to pay for bringing the line into the house and connecting to an ONT and Wifi Router.

Some customers have had some problems with the transition. Usually it's due to leaving an old modem or router connected that interferes with the new router. Also, Verizon continues to put voltage on their lines even after discontinuing service, so unplugging the Verizon line at the Network Interface where it comes into the house solves interference problems from that. Once those problems are ironed out and everything has been connected to the new router, the service has been excellent!

Finally, about billing and payment: our ISP only accepts online payment, either direct debit from a bank account, or using a credit card. This is all handled through a web portal set up

for each customer. The first bill is a whopper because it includes the one-time \$99 activation fee, the charges through the month the bill is issued, as well as the upcoming month. After that, the bills are only for the upcoming month. If you paid a WiredWest deposit in 2015, then that will be credited on your first bill.

For inquiries about installation, service options, and billing, contact customer service at: 413-485-1251

For technical problems, contact tech support at: 413-485-1204

Legal Books Available

Submitted by Paul McLatchy III

The Town Hall is trying to find a new home for nearly 40 years of various legal books. Books include Appeals Courts reports, Acts and Resolves of the General Court, Annotated Massachusetts General Laws, and a few other legal-related works. While these books bring a classy look to any office, a portion of the information is outdated with new laws on the books, and most is available online. In addition, for volunteer town officials (other than those who are well-versed in reading court cases or legal reports), town counsel or the Attorney General's office are likely better resources than books.

However, there may be interest to the general public. There are approximately sixteen 24-inch boxes that are filled with these books. If you would like some (or all) of these, they are available on a first come, first serve basis at no cost. Please see Paul or Janice at town hall. If they are unclaimed by October 31st, they will be sent to recycling at the transfer station

Selectmen's News

Submitted by Chuck Sokol, Chair

The BoS is accepting applications for qualified people interested in the position of Treasurer. Please contact the BoS for requirements and job duties.

The BoS and the DPW have received a set of engineering recommendations regarding the continued maintenance, upkeep, and/or repair of Davis Mine and Davenport Roads. A meeting will be scheduled soon to discuss the recommendations with anyone who is interested in being a part of the conversation.

Recently, the town speed limit signs have been removed in preparation for a town-wide speed-limit evaluation. In the interim, drivers should be aware that unmarked roads have a maxi-

mum speed limit of 40 MPH. Contact the police department for additional information.

A Financial Roundtable with the BoS, Assessors, and Finance Committee will occur on Thursday evening, October 24, 6:30 PM at the Town Hall. Representatives for each board or department are welcome to attend, and we welcome any general projections or ideas.

On Monday, October 28 at 6:30 PM in the Town hall, an Elected/Appointed Officials Forum will occur to meet and discuss with each department any initial ballpark expectations for next year's budget and capital needs. These annual meetings have historically been helpful for the various departments to hear of each other's needs, hopes, and expectations. The goal is to get the various departments to avoid

Aerial view of the town center -Pelham Lake on left, Mill Pond on right
plane flown by Meredith Sokol, photo by Chuck Sokol

competition for limited resources as much as possible.

If you have any questions, comments, or concerns about these or any other issues, please write to the Board of Selectmen at 321 Zoar Rd, e-mail the executive secretary at admin@rowe-ma.gov, or by coming to a meeting.

Fire Department News

Submitted by Dennis Annear

The members of the Rowe Fire Department continue to increase their knowledge and abilities to respond to emergency calls from you the citizens and property owners. Jeffrey Simmons should be congratulated for completing the Incident Command System ICS 400 class. Jeff is the only other member of the department besides myself who has completed this level of Incident Command Training. This class provides instruction in managing large scale incidents and concentrates on managing incidents that cross jurisdictional lines such as our Town lines. I personally congratulate Jeff for making the time to attend this course and specifically this level of training.

The other members of the department this past month have spent time moving the equipment from the Town's 1993 Engine 4 to the 2003 Engine the Town purchased from the Town of Charlemont. This newer truck is in service as we continue to equip it in the best manner to serve the Town of Rowe. We also spent a couple of evenings working with Charlemont Fire-Rescue to learn the capabilities of their new vehicle stabilization struts and high pressure air bags. Some members also spent time practicing with the Hydraulic Rescue tools.

As we approach the heating season we encourage you to have your heating systems ser-

viced and if you burn wood to have your chimney cleaned and inspected. The department has chimney cleaning tools that are available to use. If you want to borrow them just call the station and leave a message and someone will get back to you. The Fire Department can no longer clean chimneys due to overall general liability concerns and the OSHA regulations that went into affect last February. In order to do non emergency work on a roof we are required now to have special equipment and training. This is also the time of year that you need to check the operation of your smoke and Carbon Monoxide Detectors. If your detectors are ten years old or older they should be replaced to insure operation when needed. If you require assistance in checking your detectors, replacing batteries, replacing detectors or have questions about detectors please call the station and we will send someone out to assist you.

This fall you may see one of the department vehicles in your driveway. We are working on updating the preplans for fire response to properties in the Town of Rowe that were completed in 2000. We are starting with properties that we know have driveways that are longer then 1000 feet as these properties pose special logistical challenges should a fire occur. We hope that you support this endeavor and allow us to measure your driveway, answer some simple questions, take pictures of your property and affix a small reflective symbol at the end of the drive. If you have questions about this program feel free to contact me.

Rowe Town Library News

Submitted by Molly Lane, Library Director

The library has a great line-up of adult and children's programs for the fall season. Kids, stop by after school on early release Wednesdays for fun activities. Adults, keep your eyes on our Facebook page, your inboxes and our sign out front for events coming throughout the month.

Library Hours: Tuesday & Saturday 10-5,
Wednesday 10-8

Programs:

Kids: Craft Wednesdays: each school early release Wednesdays @ 2:30pm in October

Adults: Wednesday October 16th @ 6:30pm Paint Pouring Painting w/Bailey Cousineau

Limited 12 participants please pre register. 14 years and up

Wednesday October 21 @ 2:15pm Book Club

Contact the library if you would like to be put on our email notifications for programs.

Some New Items This Month

Adult Fiction:

Young Adult, Juvenile & Kid's Books:

The beaver meadow off the Davis Mine loop trail is one of my favorite places to go at any season. There's always something interesting to see. Starting at the large parking area off Davis Mine Rd, the trail is an easy walk to this old beaver meadow. On the way, I saw these wonderful things:

-Sue Alix Williams

pigskin poison puffball

woodfrog

beechdrops

coral fungus

In the meadow....

a lovely purple aster

bog clubmoss

cotton grass

A COMPREHENSIVE GUIDE TO YELLOW STRIPEY THINGS

CARPENTER BEE

- ACTS LIKE IT'S TOUGH, BUT CAN'T ACTUALLY HURT YOU
- HAS NO CONCEPT OF WHAT GLASS IS
- LIVES IN YOUR FENCE
- FLIES AGGRESSIVELY TO TRY AND SCARE YOU AWAY

HONEYBEE

- IS THE BEE THAT NEEDS HELP THE MOST
- EXCELLENT POLLINATOR
- VERY FRIENDLY
- CAN ONLY STING ONCE

BUMBLEBEE

- ALSO POLLINATES STUFF VERY WELL
- SO FAT IT SHOULDN'T BE ABLE TO FLY
- WILL LET YOU PET IT WITHOUT GETTING AGITATED
- ACTUALLY A FLYING PANDA

HOVERFLY

- WEARS YELLOW STRIPEY UNIFORM TO SCARE YOU
- ACTUALLY CAN'T DO ANYTHING TO YOU
- HANGS OUT IN FIELDS
- FOLLOWS YOU IF IT LIKES YOU

PAPER WASP

- LOOKS SCARY, BUT WILL ONLY ATTACK IF PROVOKED
- STING HURTS LIKE THE DEVIL
- WILL CHASE YOU IF YOU SWAT AT IT
- HAS NO CONCEPT OF PERSONAL SPACE

YELLOW JACKET

- WANTS YOUR FOOD AND WILL FIGHT YOU FOR IT
- NEVER LEAVES YOU ALONE
- WILL STING YOU JUST FOR THE HECK OF IT
- IS JUST A JERK

CICADA KILLER

- LOOKS LIKE SATAN'S NIGHTMARES
- EXCLUSIVELY EATS CICADAS
- CAN STING YOU, BUT USUALLY WON'T
- STILL PRETTY TERRIFYING

DIRT DAUBER

- ALMOST NEVER STINGS ANYTHING EXCEPT SPIDERS
- BUILDS NEST IN THE GROUND
- HOARDS SPIDERS IN SAID NEST
- COOLEST LOOKING OF THE WASPS

photo by Jenn Morse

RHS Presents - North School Basket Weavers

-Submitted by Joanne Semanie

I recently had an opportunity to revisit some photographs from the Dunnell/Henderson estate that were given to the Rowe Historical Society and a few caught my eye. With this being the first month of the school season I thought I would share a few of them. The photographs were well marked with the names of the students, year and their teacher. The photographs were taken during the 1922-23 school year at the North School which was situated just north of the intersection of Cross and Potter Roads on the east side.

Mrs. Henderson was the teacher this particular year and was fond enough of her students to have photographs taken probably at the beginning of the year and during the year with their basket weaving classes.

This particular year there were 7 boys and 2 girls attending. Most school days revolved around steady work in reading, writing and arithmetic. The classes were organized by teachers in terms of competence rather than by age.

During this school year basketry was a skill every student learned at the North School. Some were exceptionally good as is alluded to in the writing on the backs of the photographs. Baskets were woven indoors and out with every student engrossed in their weaving. Handwork was prized and many things were taught in basketry – math, measuring, geometry as well as the aesthetic.

North School, Bottom row left to right – Myrtle Coolbrith, Evelyn Woffenden, William Shumway, George Coolbrith. Top row – Roy Holden, Jr., Steele Bemis, Gerald Holden, Lauren Holden, Richard Shumway.

The last photograph tells a little of Roy Holden, middle of the three large boys standing who won the county championship and went to Amherst to Camp Gilbert. He then went on to the Eastern States Exposition to compete and to demonstrate basketry as well. Then on to Brockton for demonstrations at the request of George L. Foley the State Club Leader. The next year she writes that Roy was state Champion and went to Amherst.

There are a few more basket weaving students seen in photographs of the East school when Mrs. Henderson was teaching there in later years and it makes me wonder if this was part of her particular curriculum. Grange was ever present during this time and there were always competitions similar to the type of thing we see at small agricultural fairs today.

When the North School closed the remaining students moved to the East School until all students in town went to the Village school in 1939. I'm sure projects like this continued although maybe not on as grand a scale. I think every one of us who attended a school in Rowe remembers some project that was so much fun we didn't realize that we were learning other skills.

Eastern Equine Encephalitis (EEE)

Submitted by Sheila Litchfield, RN, Town Nurse

Recently Rowe was designated as “moderate risk” for EEE. This is a problem towns in the eastern part of the state have been dealing with, but is new in northwestern mass.

EEE is a very dangerous disease. The CDC states: “Approximately a third of all people with EEE die from the disease. Death usually occurs 2 to 10 days after onset of symptoms but can occur much later. Of those who recover, many are left with disabling and progressive mental and physical sequelae, which can range from minimal brain dysfunction to severe intellectual impairment, personality disorders, seizures, paralysis, and cranial nerve dysfunction. Many patients with severe consequence die within a few years.”

There are no vaccines to prevent infection, and no cure. **EEE is the deadliest mosquito-borne disease in the world because of the high rate of death and permanent disability.**

The incubation period for the illness from the time a mosquito bites a human until that person feels and shows signs of being ill, is usually between 2 and 10 days. However, some people get sick within a day of being bitten and some may not show such signs for up to two weeks.

The EEE virus circulates between bird reservoir hosts and mosquitoes. Transmission occurs from the bite of an infected mos-

quito. Mosquitos become infected with EEE when they take a blood meal from a bird that is carrying the virus. Mosquitos then transmit the virus to other birds during subsequent blood meals, continuing the cycle. EEE is not transmitted by direct contact. Humans get EEE by being bitten by an infected mosquito.

When a human is infected, the Mass Dept of Public Health undergoes an elaborate epidemiological process to determine where that person most likely was infected, and then designates grades of risk so that residents will be alerted to the risks in their areas and can take appropriate levels of precaution. The risk grades also guide the state and local public health departments as to actions needed to reduce the risk to the public – actions that include public education, mosquito trapping and testing, targeted use of larvicide, ground and aerial spraying as a last resort.

The Board of Health is exploring various options for the most effective means of preventing EEE- infected mosquitos in our area in future seasons.

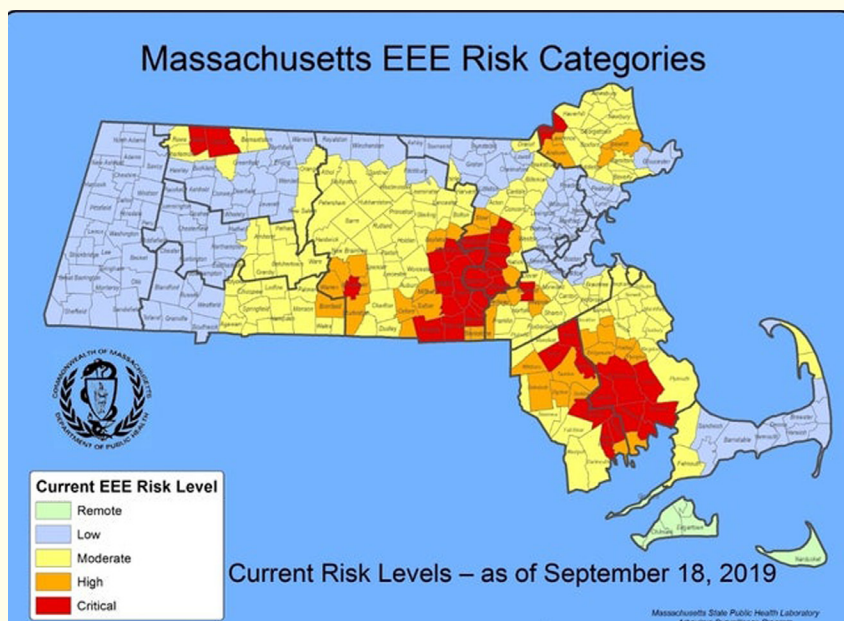

The best defense you can take is to prevent mosquitos from biting, including using a deet-based mosquito repellent, wearing long sleeves where appropriate, and avoid being in out of doors between dusk and dawn until after the first hard frost.

Recommended cancellation times for outdoor activities in high risk areas¹

The types of mosquitoes most likely to transmit EEE infection are likely to be out searching for food (an animal to bite) at dusk, the time period between when the sun sets and it gets completely dark. The exact timing of this increased activity is influenced by many factors including temperature, cloud cover, wind and precipitation and cannot be predicted precisely for any given day. This does not eliminate risk nor does it alleviate the need for the use of repellants or clothing for protection from mosquitoes.

Week of	Time of Dusk	Time of Dawn

1 Adapted from 2019 Arbovirus Surveillance and Response Plan

It's been a busy month at the Rowe School, since we started school on August 28th. We've been getting reacquainted with friends from last year, and gotten to know our new friends. Students have spent time exploring our school library and its great collection of books, have enjoyed P.E. in the gym, music, Spanish and art instruction, worked hard in their core courses of Math, Reading, and Writing, as well as learning and building community in our classrooms. We've had a weekly All School meeting on Wednesday afternoons, having fun together and working to become a community. The 6th graders received two days of peer mediation training, led by Ms. Lapointe. They will be available to mediate minor disputes between students throughout the year. In addition, teachers have had professional development covering topics from the new Massachusetts Science Standards and safety plans. We've also had our Open House, with great participation from Rowe School families.

September also saw the beginning of our After School Activities program, with a group of students working on a school newspaper, and over 36 students signed up to play soccer. These activities are different from the free childcare that is always available on our Wednesday Professional Learning early release days, from 1:50 when students are released, until our regular release time of 3:20. We ask that families let Laurie know in advance if your student will be staying for this free program, but we can always accommodate at the last minute, or if there is an emergency.

We held our first Fire Drill in September as well,

the students (and staff) did a great job exiting the building quietly and quickly. We have lockdown drills and fire drills scheduled throughout the year.

October should be busy as well. In addition to the ongoing work in the classrooms, the K-6 will be hiking Mt. Greylock on Friday, October 4th. There is no school Monday, October 14, Indigenous Peoples' Day. The School Committee is scheduled to meet on Thursday, October 10 at 4:00 at the school. Trunk or Treat is scheduled for Friday, October 25 in the school parking lot, and our first Community Pot Luck is scheduled for immediately afterward. Thank you to the PTP for help with the organization.

In addition, we are starting to plan for our Cultural Study of Indonesia, which kicks off on Thursday, October 24, with presentations at the school and an Indonesian luncheon, followed by work in the classrooms and culminates with our performance, scheduled for Thursday, December 12. This year we're "traveling" to Indonesia, so if you, or someone you know, has any special knowledge or expertise, please let us know.

We have volunteer opportunities in the school on a regular basis. If you feel you could commit to regular, weekly volunteer time, just want to help out occasionally, or know someone who can, please let me know.

I hope to see you around the school soon if you would like a tour, please get in touch. Whether for a tour, a question or any other reason, you can contact me at the school at 512-5100, in the evenings at 413-446-4949, or by email at wknittle@roweschool.org.

-Submitted by Bill Knittle

Now in High October

It is here --
now in High October --
The time of fragile stillnesses,
When the scarlet hysteria of autumn
Has gone, and the smoke-purple uplands
Harbor no more the frantic pulses of the spring:
Of mating and feeding, maturing and leaving --
All is done.

In silent rapture
White birches lay their feathered heads against the sky,
And the bronze bells of giant oaks
Stand motionless and mute.
Only the poplars burst on the harsh mountainsides
Like the golden crash of far artillery.
Only the russet beaver slaps his tail in the mist;
Only the jay at intervals, screams his exuberance
Among the coral berries of the juniper.

-Fannie B. von Reuss-Chenberg

(Fannie Ballou Sibley grew up in Rowe, travelled & worked in Europe & the far east, finally returning to Rowe in 1961 to teach at Rowe Elementary School)

Sudoku

Easy

9	6	7	3	8		1		
	4	8			7	9		
	3	5			6	2	7	
8			9		1		4	
3				5		6		9
		6					1	5
			1		4			
		1		2	9		6	
		9	6			7	8	

Enter the digits 1 through 9 into each 3x3 box, column, and row only once. To win sudoku, you must place all the numbers correctly into the board.

ROWE SENIOR
AUTUMN LUNCHEON
AT THE 4 LEAF CLOVER RESTAURANT

The Rowe Council on Aging will be hosting an Autumn Luncheon at the **4 LEAF CLOVER RESTAURANT** in Bernardston, MA

DATE: Friday, October 18th 2019

TIME: 12 Noon-Lunch will be served

This trip will be car pooled. Please contact Sandy Daviau at the Rowe Town Hall by Wednesday, October 16th if you would like to attend. Phone #413-339-5520 EXT. 19

photo by Chuck Sokol

On September 4, a fast moving thunder-storm barrelled through town around 3:30 pm. There was a lot of wind and lightning and a bolt struck the powerlines on Pond road close to the Bench Tool.

Over 800 people in Rowe and Heath were without power for up to 6 hours at some places.

If you lost power that day but didn't know why, this was the reason.

GRANNY SCAM

Beware of the “Granny Scam” where a scam artist poses as your grandchild in trouble.

- They pretend to be your grandchild calling in the middle of the night;
- They tell you they are in some sort of trouble;
- They plead with you to keep it a secret, not to tell their parents;
- They will often have a second person pose as an official who will validate the claim;
- They ask you to wire money for “bail” or other problems via Western Union, Money Gram or even to mail cash.

What can you do?

- To avoid falling prey, ask your “grandchild” to prove who they say they are
- Trust but verify; call the child’s parents
- **HANG UP**
